Guidelines for Camera Ready Paper

Kindly follow the below mentioned guidelines strictly, related to preparation of final camera ready copy, e-copyright form, registration/ payment details and source copy of paper (doc/docx/latex).

- Camera Ready Copy (CRC) prepared through PDF Xpress using http://www.pdf-express.org/plus/contributor.asp , use conference id **39694XP.**
- Format your paper on the IEEE template, visit http://www.ieee.org/conferences_events/conferences/publishing/templates.html
- Authors should not mention designation etc. in the name. You are requested to mention only name without salutation (Dr./ Prof./ Mr./ Ms.), college/organization name and mail ids of all the authors. However, you may mention acknowledgement if necessary (at the end of the paper before the references).
- Authors should not give any photo and biography at the end of the paper.
- Incorporate the correction against the comments raised by the reviewer(s) as far as practicable. The responsibility lies with the author to incorporate these comments in preparation of Camera Ready Copy (CRC).
- In case there is any similarity issue which is communicated to you by review comments, kindly rewrite the paper to avoid any such plagiarism issue in CRC. Please read IEEE plagiarism policy at http://www.ieee.org/publications_standards/publications/rights/plagiarism.html. Don't change the sequence or number of authors without taking permission from Conference Chair (NGCT-2016).
- Cite all figures and tables used in the body of the text within the paper. Check English sentences, grammars and spelling carefully. You are advised to take support from some expert on this.
- It is mandatory that the submitted manuscript is solely from the authors' own work and not from the work of others (unless explicit permission for the same has been granted). This includes text, figures and tables. Information from published articles must always be cited explicitly. Proper citation is to give the credit to the work that is originally published (not to follow-up work or reviews).
- Citations should be given close to the information within the sentences or at the end of the sentence, not after several sentences or near the end of the paragraph. Even when citations are given, exact copying of a whole sentence or paragraphs should be indicated by quotation marks. Furthermore, reuse of part of a published figure or table requires a copyright permission from the publishers that hold the rights. All published figures and tables should explicitly be cited to indicate the origin.
- Prepare your CRC (manuscript) using IEEE template without containing any page numbers or any special headers or footers. From the final CRC formatted, authors should generate the electronic version of CRC in PDF format through PDF xpress.
- Fill e-Copyright Form using http://ngct2016.ngct.org/registration-fee/eCF-Registration
- After making the above entries in the copyright form, it should be signed by any one author (on the behalf of all the authors).
- Scan the duly signed e-Copyright form and convert it to pdf.
